5 Senses

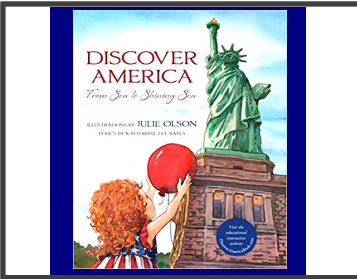

July 15-19 YOU STINK!...and taste and touch and hear and see

Learning the five senses helps children better explore the world around them - how food tastes, the sounds of nature, the fragrance of a flower, the softness of a puppy's fur, and the changing skies. This week the children will explore their senses with a variety of activities and crafts that will help them learn about each one of the five senses.

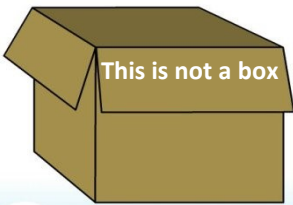

July 22-26 At The Zoo

Alligators! Tigers! And Hippos! Oh, my! Children will learn about a variety of zoo animals - the sounds they make, what food they eat, and where they live. They learn that zoos help people discover animals from all over the world and are also places that help animals who are almost extinct. Zoo-inspired crafts and activities will help your children explore and learn about the animal kingdom.

August 12-16 From Sea to Shining Sea

Based on the book by Julie Olson, Discover America, children will follow the journey of a little red balloon as it makes its way from the West Coast to the East Coast of the United States. Through the words of "America the Beautiful," children will discover the beauty and diversity of their country from sea to shining sea.

August 19-23 Is a Box Just a Box?

Toys are great fun, but some times all you need is a box to spark imagination. A box can be anything...an airplane, a car, a tool box...wherever imagination takes you. This week children will transform ordinary boxes into something extraordinary.

Each Week of Summer Camp Will Include.....

Monday	Tuesday	Wednesday	Thursday	Friday
Special Picnic snack	Bubble Day	Water Day Weather permitting	Cooking, Baking Ball Day	Free Play Special picnic snack
And.....so.....much.....more!
